

K-love serves me as a local resident of Glendale by giving me a positive, encouraging alternative for radio listening which I do regularly at least 5 hours a day. If it were removed there would be no alternative radio station that would be nearly as valued. K-love helps the mental health and balance of so many listeners every day. It is helpful to so many people and brings out the best in us when so much of the world is working against us and bringing us down. It is a support system for more people than you could know. Thank you for your consideration.
